2025 WORKSHOP • 17-18 JUNE

CBMS's Diagnostics for Global Health Workshop

<https://globalhealthworkshop.org>

Bringing together public health professionals, microfluidics researchers, and diagnostic commercialization partners from around the world, this conference is scheduled to take place **virtually on June 17 and 18, 2025**.

Excellent Keynote speakers and panelists have already been secured including [Dr. Gagandeep Kang](#) (Director of Enterics, Diagnostics, Genomics and Epidemiology, Global Health at the Bill and Melinda Gates Foundation), [Dr. Manu Prakash](#) (Associate Professor at Stanford University), [Dr. Fernan Federicci](#) (Assistant Professor at Engineering of the Pontificia Universidad Católica de Chile), and [Dr. Margaret Mutumba](#) (Program Director, Frugal Biomedical Innovations, School of Biomedical Engineering, Western University).

Workshop Scope includes talks and panels focused on emerging aspects of global health such as sustainability in diagnostics and frugal diagnostics development.

We are offering three benefactor tiers noted below, we hope one will work well for your organization. Please do not hesitate to reach out to us at info@globalhealthworkshop.org with any questions or thoughts about the Workshop.
